C2 The service curriculum is informed by assessment, planning and evaluation (documented and undocumented) that demonstrates an understanding of children’s learning, their interests, whānau, and life contexts.
C3 Educators engage in meaningful, positive interactions to enhance children’s learning and nurture reciprocal relationships.

C4 The practices of educators and coordinators demonstrate an understanding of children’s learning and development, and knowledge of relevant theories and practice in early childhood education.

C6 The service curriculum respects and supports the right of each child to be confident in their own culture and encourages children to understand and respect other cultures.

Children as learners
C7 The service curriculum is inclusive, and responsive to children as confident and competent learners. Children’s preferences are respected, and they are involved in decisions about their learning experiences.

C8 The service curriculum provides a language-rich environment that supports children’s learning.

C9 The service curriculum provides children with a range of experiences and opportunities to enhance and extend their learning and development – both indoors and outdoors, individually, and in groups.

Regulation 46 – Health and safety practices standard: general

(1) The health and safety practices standard: general is the standard that requires every licensed service provider to whom this regulation applies to—

(a) Take all reasonable steps to promote the good health and safety of children enrolled in the service; and

(c) Take all reasonable precautions to ensure that the premises, facilities, and other equipment on those premises are—

(i) kept in good repair; and

(ii) maintained regularly; and

(iii) used safely and kept free from hazards; and

(d) take all reasonable steps to ensure that appropriate procedures are in place to deal with fires, earthquakes, and other emergencies.

(2) Each licensed service provider to whom this regulation applies must comply with the health and safety practices standard: general.

8 Criteria to assess health and safety practices standard

Hygiene

HS1 Premises, furniture, furnishings, fittings, equipment, and materials for the use of children attending are kept safe, hygienic, and maintained in good condition.

HS2 Linen used by children or adults is hygienically laundered.

Documentation required
A procedure for the hygienic laundering (off-site or on-site) of linen used by the children or adults.

HS3 A procedure for the changing (and disposal, if appropriate) of nappies is consistently implemented.

Documentation required
A procedure for the changing (and disposal, if appropriate) of nappies. The procedure aims to ensure:

• safe and hygienic practices; and

• that children are treated with dignity and respect.

Emergencies

HS4 There are a written emergency plan and supplies to ensure the care and safety of the children and educator at home and when away from the home. The plan must include evacuation procedures that apply in a variety of emergency situations and that are relevant to the home.

The written emergency plan must also include out-of-school care children if out-of-school care is being provided in the home.

If the home is in a building that has an approved Fire Evacuation Scheme, the evacuation procedures must be consistent with that scheme.

Documentation required
A written emergency plan that includes at least:
- An evacuation procedure for the premises.
- A list of safety and emergency supplies and resources sufficient for the age and number of children and adults at the service and details of how these will be maintained and accessed in an emergency.
- A communication plan for families and support services.
- Evidence of review of the plan on an, at least, annual basis and
- Implementation of improved practices as required.

HS5 Designated assembly areas for evacuation purposes outside the building keep children safe from further risk.

HS6 Heavy furniture, fixtures and equipment that could fall or topple and cause serious injury or damage are secured.

HS7 Educators are familiar with relevant emergency drills and carry these out with children on an at least three-monthly basis.

Documentation required
A record of the emergency drills carried out and evidence of how evaluation of the drills has informed the annual review of the service’s emergency plan. For services providing out-of-school care the record must include evidence of drills performed with enrolled children and out-of-school care children at the same time.

Sleep
HS8 A procedure for monitoring children's sleep is implemented, and information is communicated to parents about their child's daily sleep patterns.

Documentation required
A procedure for monitoring children's sleep. The procedure ensures that children:
- do not have access to food or liquids while in bed; and
- are checked for warmth, breathing, and general well-being at least every 10 – 15 minutes (during day-time sleep), or more frequently according to individual needs.

HS9 Furniture or items intended for children to sleep on (such as cots, beds, stretchers, or mattresses) are arranged and spaced when in use so that:
- adults have clear access to at least one side (meaning the length, not the width);
- the area surrounding each child allows sufficient air movement to minimise the risk of spreading illness; and
- children able to sit or stand can do so safely as they wake.

HS10 If not permanently set up, furniture or items intended for children to sleep on (such as cots, beds, stretchers, or mattresses) and bedding is hygienically stored when not in use.
Hazards and excursions

HS11 Equipment, premises, and facilities are checked on every day of operation for hazards to children. Accident/incident records are analysed to identify hazards and appropriate action taken. Hazards to the safety of children are eliminated, isolated or minimised.

Consideration of hazards must include but is not limited to:
- cleaning agents, medicines, poisons, and other hazardous materials;
- electrical sockets and appliances (particularly heaters);
- hazards present in kitchen or laundry facilities;
- vandalism, dangerous objects, and foreign materials (e.g. broken glass, animal droppings);
- the condition and placement of learning, play and other equipment;
- windows and other areas of glass;
- poisonous plants; and
- bodies of water.

Documentation required
A documented hazard identification and management system.

HS12 All practicable steps are taken to ensure that noise levels do not unduly interfere with normal speech and/or communication, or cause any child attending distress or harm.

HS13 Safe and hygienic handling practices are implemented with regard to any animals. All animals on the premises are able to be restrained.

HS14 Whenever children leave the premises on an excursion:
- assessment and management of risk is undertaken;
- parents have given prior written approval of their child's participation;
  i. for regular excursions at the time of enrolment; and
  ii. for special excursions prior to the excursion taking place; and
- there are communication systems in place so that people know where the children are, and adults can communicate with others as necessary.

Documentation required
A record of excursions that includes:
- the names of adults and children involved;
- the time and date of the excursion;
- the location and method of travel;
- assessment and management of risk;
- evidence of parental permission for the regular excursions at the time of enrolment; and
- evidence of parental permission for special excursions.

HS15 If children travel in a motor vehicle while in the care of the service:
- each child is restrained as required by Land Transport legislation; and
- the written permission of a parent of the child is obtained before the travel begins.

Documentation required
Evidence of parental permission for any travel by motor vehicle.
In most cases, this requirement will be met by the excursion records required for criterion HS14.
Food and drink

HS16 Food is served at appropriate times to meet the nutritional needs of each child while they are attending. Where food is provided by the educator, it is of sufficient variety, quantity, and quality to meet these needs. Where food is provided by parents, the service encourages and promotes healthy eating guidelines.

Documentation required
A record of all food served to children while they are participating in the service (other than that provided by parents for their own children). Records show the type of food provided, and are available for inspection for 3 months after the food is served.

HS17 Food is prepared, served, and stored hygienically.

HS18 An ample supply of water that is fit to drink is available to children at all times, and older children are able to access this water independently.

HS19 Children are supervised while eating.

HS20 Infants under the age of 6 months and other children unable to drink independently are held semi-upright when being fed. Any infant milk food given to a child under the age of 12 months is of a type approved by the child's parent.

Child health and wellbeing

HS21 Rooms used by children are kept at a comfortable temperature no lower than 16°C (at 500mm above the floor) while children are attending.

HS22 There is an adult present at all times while children are attending who:
- holds a current First Aid qualification gained from a New Zealand Qualifications Authority accredited first aid training provider, or
- is a registered medical practitioner or nurse with a current practising certificate; or
- is a qualified ambulance officer or paramedic.

If a child is injured, any required first aid is administered or supervised by an adult meeting these qualification requirements.

If access to first aid training is limited due to circumstances beyond the service provider’s control, the service provider must ensure that educators have knowledge of first aid, and gain a first aid qualification within 4 months of starting work at the service.

Documentation required
1. Copies of current first aid (or medical practising) certificates for adults counting towards this requirement.
2. Where access to first aid training for an educator is limited, a record of the actions taken by the service provider to ensure the educator has knowledge of first aid and achieves a first aid qualification within 4 months of starting work at the service.

HS23 All practicable steps are taken to ensure that children do not come into contact with any person (adult or child) on the premises who is suffering from a disease or condition likely to be passed on to children and likely to have a detrimental effect on them.

Specifically, any children who becomes unwell while attending the service or receiving out-of-school care is kept at a safe distance from other children (to minimise the
spread of infection) and returned to the care of a parent or other person authorised to
collect the child without delay.
Out-of-school care must not be provided to children who are absent from school due to
illness.

**HS24** All practicable steps are taken to get immediate medical assistance for a child who is
seriously injured or becomes seriously ill, and to notify a parent of what has happened.

**DOCUMENTATION REQUIRED:**

1. A record of all injuries, illnesses and incidents that occur at the service.
   Records include:
   • the child’s name;
   • the date, time and description of the injury, illness or incident;
   • actions taken and by whom; and
   • evidence that parents have been informed.

2. A procedure outlining the service’s response to injury, illness and incident,
   including the review and implementation of practices as required.

**HS25** Medicine (prescription and non-prescription) is not given to a child unless it is given:
• by a doctor or ambulance personnel in an emergency; or
• by the parent of the child; or
• with the written authority (appropriate to the category of medicine) of a parent.
Medicines are stored safely and appropriately, and are disposed of, or sent home with a
parent (if supplied in relation to a specific child) after the specified time.

**Documentation required**

1. A record of the written authority from parents for the administration of medicine in
   accordance with the requirement for the category of medicine outlined in Appendix 2.

2. A record of all medicine (prescription and non-prescription) given to children
   attending the service. Records include:
   • name of the child;
   • name and amount of medicine given;
   • date and time medicine was administered and by whom; and
   • evidence of parental acknowledgement.

**HS26** Adults who administer medicine to children (other than their own) are provided with
information and/or training relevant to the task.

**Documentation required**

A record of training and/or information provided to adults who administer medicine to
children (other than their own) while at the service.

**HS27** Children are washed when they are soiled or pose a health risk to themselves or others.

**Child protection**

**HS28** There is a written child protection policy that meets the requirements of the
Vulnerable Children Act 2014. The policy contains provisions for the identification
and reporting of child abuse and neglect, and information about how the service will
keep children safe from abuse and neglect, and how it will respond to suspected child abuse and neglect.

The policy must be reviewed every three years.

Documentation required

1. A written child protection policy that contains:
   a. provisions for the service’s identification and reporting of child abuse and neglect;
   b. information about the practices the service employs to keep children safe from abuse and neglect; and
   c. information about how the service will respond to suspected child abuse and neglect.
2. A procedure that sets out how the service will identify and respond to suspected child abuse and/or neglect.

HS29 All practicable steps are taken to protect children from exposure to inappropriate material (for example, of an explicitly sexual or violent nature).

HS30 Coordinators and educators must not use, or be under the influence of, alcohol or any other substance that has a detrimental effect on their functioning or behaviour while responsible for children attending the service.

HS31 All practicable steps are taken to ensure that children do not come into contact with any person on the premises who is under the influence of alcohol or any other substance that has a detrimental effect on their functioning or behaviour.

HS32 No person on the premises smokes in any area which is available for use by children or for food preparation while children are attending the service.

Notification

HS33 Where there is a serious injury or illness or incident involving a child while at the service that is required to be notified to a specified agency, the service provider must also notify the Ministry of Education at the same time.

Documentation required

A copy of the notification sent to the specified agency.
Supervision

**HS34** Every educator must ensure that they actively supervise children, at all times, while they attend the service.

**Documentation required**
A written supervision plan that ensures the good health and safety of children enrolled in the service is maintained at all times.

The plan must be specific to the premise and the number, age, abilities and enrolled hours of the children attending and must show how the educator will actively supervise children attending the service. It must include, but is not limited to:

- how the premise will be arranged, across all indoor and outdoor spaces likely to be used at any time while children are attending the home, to enhance supervision of children;
- how children will be supervised while they are:
  - involved in activities or routines (such as sleeping, eating and toileting) in separate parts of the home;
  - using play equipment and resources, both indoors and outdoors;
  - interacting with other people in the home, including visitors; and
- using technology or while they are in the presence of technology while it is being used by others in the home.
